

ROCKY MOUNTAIN HIGH PERFORMANCE SCHOOLS

• BETTER PLACES TO LEARN •

JULY 27 & 28, 2006

8AM – 4PM

FOSSIL RIDGE HIGH SCHOOL

FORT COLLINS, COLORADO

POUDRE SCHOOL DISTRICT

GREEN DESIGN, SUSTAINABILITY,
HIGH-PERFORMANCE SCHOOLS...

You’ve heard the buzz,
now see what it’s all about!

Join us for two days in the Colorado Rockies to visit and learn about green, sustainable, high-performance schools.

With more than 20 years of experience in green school design and recognized as a national leader in planning high-performance schools, Poudre School District is hosting a two-day conference this summer in Fort Collins, Colorado, for school administrators and professionals responsible for school design.

Research shows that buildings using these strategies can and do have positive impacts on student learning. These schools not only save money, conserve energy, but increase student achievement and don't cost any more to build than traditional schools.

As a conference attendee you'll walk the halls of these buildings and see first-hand what these strategies look like in practice. Choose to follow the technical or educator track, whichever best meets your needs. You'll have the opportunity to speak directly with the designers, and, you'll take home strategies to use in constructing these schools.

After a century of changing school design, the research confirms what many of us would consider good common sense—kids and teachers do better in classrooms that have natural light, clean air, are comfortable, quiet, and connect them to the rhythms of the day.

Visit the schools where teachers and students don't just do better—they thrive!

Conference fee is \$150

Your conference fee entitles you to:

- Breakfast and lunch each day
- Two days of presentations by industry experts
- Tours of LEED Silver Certified Fossil Ridge HS and 2006 Kinard Junior High School
- Entrance into evening event
- Transportation from hotels to conference and evening event
- Door prizes and give aways

Information about where to stay, area activities, etc., is available on the conference web site listed below.
